EXPERTISE SINCE 1994

I have been attracted to real solid wood furniture since my childhood. With a lifetime of hard work and fanatical enthusiasm, I have built the foundations of solid wood furniture making in the foothills of the Vértes mountains, in the embrace of nature. Furniture making is not a job for us, it is a passion. Our family has found its vocation in this vibrant environment, living its daily life and creating value for those who choose solid wood furniture.

Solid wood furniture has an inimitable atmosphere, it carries the events of the past, it encourages us to preserve it and pass it on to future generations. Solid wood furniture is more than just a utilitarian object, it conveys the scent of the meadow, the forest comes alive, nature comes into our homes, it becomes an integral part of our family and our lives.
