Craftsmanship tradition

PROFESSIONAL COMPETENCE SINCE 1994

Real solid wood furniture has attracted me since my childhood. With a lifetime of work and fanatical enthusiasm, I built the basis of solid wood production at the foot of the Vértes Mountains, in the embrace of nature. Furniture production is not only a job for us, but a passion. Me and my family found our mission in this lovely environment, live our everyday life here and create value for those who choose solid wood furniture.

Solid wood furniture has an inimitable atmosphere, it carries the events of the past, it encourages us to preserve it and pass it on to future generations. Solid wood furniture is more than an article of daily use, it mediates the scent of the meadow, the forest comes back to life, nature moves into our homes and it becomes an integral part of our family and our life.
